

THE MINISTRY OF HIGHER EDUCATION
AND SCIENTIFIC RESEARCH - IRAQ
UNIVERSITY OF KUFA

Modelling and Performance using MATLAB

Dr. Bahaa Al-Musawi

bahaa.almusawi@uokufa.edu.iq

Unit Objective

- Students who successfully complete this unit of study will have a good understanding of using MATLAB including
 - How to use MATLAB to implement different scripts
 - Use MATLAB with different applications related to ECE
 - Use Simulink to test/implement different applications

Course Layout

- Variables, Scripts and Operations
- Visualization and Programming
- Solving Equations, Fitting
- Images, Animations, Advanced Methods
- Symbolic Math, Simulink

Teaching Method

- Four hours per week
 - Two hours lecture (will be in lab so you have an opportunity to apply what you have learned)
 - Two hours laboratory (will include some applications of MATLAB)

Assessment

- Mid term exam (only one) → 20%
- Quiz (minimum two) → 10%
 - *Expected after lectures 4 and 8*
 - **One quiz without scheduling**
- Mini-project (two students per project) → 10%
- Lab → 10%
- Final exam
 - 10% Final lab exam
 - 40% Final exam

Instructors
